Used technology: React JS, Express, Node JS, Next JS, Tailwind css, Stripe, Material UI, typescript and many more...

Portfolio — *Personal portfolio project*

Portfolio is a personal project built with the Next.JS app router, harnessing the power of server-side rendering and utilizing a MongoDB database. [View project](#)

Used technology: React, Next JS, MongoDB, Mongoose and, prisma ORM, tailwind css, SCSS, typescript, framer motion.

Shambhu tours — *Freelancing project*

Shambhu Tours is a client project associated with a travel company. Users can view available tours and register for tours online. The project contains two major views: 1) Client and 2) Admin. [View project](#)

Used technology: Next.JS, Material UI, tailwind css, stripe, typescript

EDU-Fund — *Web3 Defi project*

EduFund is a Web3 crowdfunding platform for education-related campaigns. Unlike traditional crowdfunding, donors can vote on fund disbursement at multiple stages. If the majority approves, funds are sent to the recipient; otherwise, they are refunded to donors. This system ensures transparency and donor control throughout the campaign lifecycle.
